# Holiday Tour 2025

Delta Virtual Airlines Tour Briefing

Version 1.0

# DELTA VIRTUAL AIRLINES

## TOUR GENERAL INFORMATION

START DATE	11/30/25	END DATE	01/17/26	NUMBER OF LEGS: 11
DEPARTURE POINT:	EHAM	FINAL ARRIVAL POINT:	KSEA	

### INTRODUCTION

Attention DVA Pilots!!! DVA has been awarded a contract for a Special Assignment Air Mission(SAAM). This SAAM is in support of NATO cold weather operations in the Arctic Circle. We will be transporting passengers and cargo to a number of specific destinations. Rumour has it that during the cold weather operations, some of the gear being deployed is newly designed Santa Tracking equipment.

Welcome to the DVA Holiday Tour 2025. We'll be starting the adventure in Amsterdam, heading north to the Arctic Circle. There are 9 stops in the Arctic Circle and the adventure ends in Seattle, WA. There are 11 legs total with an average leg length of 701 nm. Total length for the tour is 7,711 nm.

Flying across the Arctic Circle you may see vast expanses of ice fields, frozen seas, glaciers, snow covered mountains, and white tundra stretching to the horizon. The sun, when it appears, will be low in the sky and cast a soft golden light on the horizon. At times, you may see shimmering waves of green and violet light from the aurora borealis dance across the sky. You can almost feel the silence and emptiness of the Arctic Circle from the air.

## GENERAL INFORMATION

ACARS is required in order to receive credit for completion of each leg.

You may fly any leg of the tour online, offline, IFR or VFR. You may also fly with real live weather turned ON or OFF.

As long as you are rated on the aircraft, you may use any aircraft type in this tour. You may switch aircraft types as you wish during any leg.

In-flight refueling is not allowed; please ensure you calculate correctly how much fuel is required for each leg. If real live weather is ON, please ensure you plan your fuel accordingly in the event you need to hold or go around. If you need to deviate due to weather or an emergency, you will need to complete this leg of the tour again to receive proper credit.

The departure / arrival times are just for example purpose only, you may follow the schedule times or depart at your own leisure. You can take as long as you need to complete this tour during the tour active dates. **"If completion is not possible by the end date, no credit will be given; no exception to this rule is possible."**

In the following pages, you will find a series of blocks showing all the information regarding the legs that need to be flown in order to complete this tour. The legs have a number to the left of each box indicating the order in which they should be completed.

Example: Leg number 1 must be completed before leg number 2 and so on, until you reach the end.

A checkbox has been placed at the end of each box. This is for your convenience in the event you would like to check-mark after each leg is completed.

### **\*\*\*CONNECTED LOGBOOK PILOTS: READ THE FOLLOWING CAREFULLY\*\*\***

Some DVA tours include airports which cannot be reached using our regular flight schedule database. These airports are highlighted in **RED** in the list of tour legs below and can **ONLY** be accessed by flying to and from them as part of the tour. Therefore, if you fly to the out of schedule airport on a tour leg, you must continue the tour until reaching an in-schedule airport if you wish for your logbook to remain connected. **DVA Operations will not approve any charter flight requests into or out of an out of schedule airport.**

If you have any questions regarding this tour, do not hesitate to contact [Kris\\_Goodrich@deltava.org](mailto:Kris_Goodrich@deltava.org) (this tour organizer) or the Events Department at [events@deltava.org](mailto:events@deltava.org).

## DELTA VIRTUAL AIRLINES

### AIRPORTS TO BE VISITED DURING THIS TOUR

Each box indicates a tour leg. The flights are in the order to be flown from top to bottom.

The following information is included for each leg:

First line: Departure ICAO / Arrival ICAO / Flight number / Leg Number / Departure Local Time / Arrival Local Time.

**IMPORTANT: Flight number and Leg number must be correct in order to receive tour credit.**

To the right you can see an empty box for you to use once a segment is completed.

#### \*\*\*IMPORTANT INFO FOR PILOTS WITH CONNECTED LOGBOOKS\*\*\*

Airports below which are highlighted in **RED** are not found in the regular DVA schedule and you cannot fly to or from them unless doing so as part of a tour. If you maintain a connected logbook and wish to depart the tour, you must do so from an in-schedule airport for your PIREP to be approved. No charter flights will be granted to or from these airports.

Leg numbers highlighted in **RED** indicate that they are ARRIVING at an out-of-schedule airport. Do not complete these legs if you do not intend to continue the tour afterwards.

*Note: Remember to complete each leg in the order is provided. Complete leg #1 before #2 and so on until you reach the last leg.*

## PILOT RESOURCES

### Airport Charts

If searching for an airport in the USA, you can use the .charts feature in the ACARS program to load the charts for that specific airport. Example, you can type .charts KATL or .charts ATL and a new window will open with all the available procedures for that airport.

Some airports may not have charts available via the ACARS feature. As a suggestion, you may do a search on any of the popular search engines. For example, you may type: "LPMA charts" and follow the links. Some charts might be hard to find, but if you are using the FMS, you can figure out which type of approaches are available for that particular airport.

### NOTAM Information

Leg #	Information
<b>03-04, 06-07, 07-08</b>	ENSB, BGTL, CYRB - This airport is located outside the northern/southern boundaries of X-Planes default scenery coverage (74 deg N/60 deg S) and add on scenery will be required for X-Plane pilots.
<b>06-07</b>	BGTL - FS2024 pilots will not have this airport in their simulator's default scenery. We have tested the following freeware scenery and found it to also be compatible with FS2024: <a href="https://flightsim.to/file/666/bgtl-thule-afb-greenland">https://flightsim.to/file/666/bgtl-thule-afb-greenland</a>

## FINAL WORDS

Delta Virtual Airlines hopes that you will enjoy this tour. You may fly this tour solo at your own leisure (during the tour time frame) or with other pilots as well. The water cooler would be a good place for you to invite other pilots to fly together, or at least include when you are planning on flying a specific leg in the event some other pilots are planning flying the same leg of the tour.

If you have any questions before, during or after the tour, you can always contact this tour coordinator at [Kris\\_Goodrich@deltava.org](mailto:Kris_Goodrich@deltava.org), or the Delta Virtual Airlines Events Department at [events@deltava.org](mailto:events@deltava.org).

Have fun!
