DEPARTURE POINT:		KBGR	**FINAL ARRIVAL POINT:**	KSEA

INTRODUCTION

Welcome to the US Coastal Tour. Most of the routes on this tour are not in the regular schedule by DVA. These routes will keep you close to the shores of all the Continental US States surrounded by water. Your adventure begins at Bangor International Airport, located in the city of Bangor, Maine. From there you fly south, flying close to the east coast until Fort Lauderdale, Florida. You now begin the slow transition of moving to the west coast. This time you will travel the west coast of Florida, moving in to the Gulf of Mexico ending in Corpus Christi Texas. You will fly west making stops along the way until reaching San Diego, California. Now flying the west coast enjoy the scenery along the beautiful coastal beaches until reaching your final destination Seattle Tacoma International Airport.
GENERAL INFORMATION

ACARS is required in order to receive credit for completion of each leg.

You may fly any leg of the tour online, offline, IFR or VFR. You may also fly with real live weather turned ON or OFF.

As long as you are rated on the aircraft, you may use any aircraft type in this tour. You may switch aircraft types as you wish during any leg.

In-flight refueling is not allowed; please ensure you calculate correctly how much fuel is required for each leg. If real live weather is ON, please ensure you plan your fuel accordingly in the event you need to hold or go around. If you need to deviate due to weather or an emergency, you will need to complete this leg of the tour again to receive proper credit.

The departure / arrival times are just for example purpose only, you may follow the schedule times or depart at your own leisure. You can take as long as you need to complete this tour during the tour active dates. **"If completion is not possible by the end date, no credit will be given; no exception to this rule is possible."**

In the following pages, you will find a series of blocks showing all the information regarding the legs that need to be flown in order to complete this tour. The legs have a number to the left of each box indicating the order in which they should be completed.

Example: Leg number 1 must be completed before leg number 2 and so on, until you reach the end.

A checkbox has been placed at the end of each box. This is for your convenience in the event you would like to check-mark after each leg is completed.

CONNECTED LOGBOOK PILOTS: READ THE FOLLOWING CAREFULLY

Some DVA tours include airports which cannot be reached using our regular flight schedule database. These airports are highlighted in **RED** in the list of tour legs below and can ONLY be accessed by flying to and from them as part of the tour. Therefore, if you fly to the out of schedule airport on a tour leg, you must continue the tour until reaching an in-schedule airport if you wish for your logbook to remain connected. **DVA Operations will not approve any charter flight requests into or out of an out of schedule airport.**

If you have any questions regarding this tour, do not hesitate to contact jay_marin@deltava.org (this tour organizer) or the Events Department at events@deltava.org.

COMPLETE TOUR OVERVIEW MAP

PILOT RESOURCES

Airport Charts

If searching for an airport in the USA, you can use the .charts feature in the ACARS program to load the charts for that specific airport. Example, you can type .charts KATL or .charts ATL and a new window will open with all the available procedures for that airport.

Some airports may not have charts available via the ACARS feature. As a suggestion, you may do a search on any of the popular search engines. For example, you may type: "LPMA charts" and follow the links. Some charts might be hard to find, but if you are using the FMS, you can figure out which type of approaches are available for that particular airport.

FINAL WORDS

Delta Virtual Airlines hopes that you will enjoy this tour. You may fly this tour solo at your own leisure (during the tour time frame) or with other pilots as well. The water cooler would be a good place for you to invite other pilots to fly together, or at least include when you are planning on flying a specific leg in the event some other pilots are planning flying the same leg of the tour.

If you have any questions before, during or after the tour, you can always contact this tour coordinator at jay_marin@deltava.org, or the Delta Virtual Airlines Events Department at events@deltava.org.

Have fun!
